

Thunder Bay Community Tennis Centre Stage 1 COVID Protocols

Guiding Principles:

The Thunder Bay Community Tennis Centre strives to provide a safe and welcoming facility where users can benefit from playing the life-time sport of tennis.

In order to safely return to playing tennis during the COVID-19 pandemic our organization has consulted with our City partners and our sport governing bodies to develop the safest way for us to return to the game that we love. We have based our decisions on the latest best-practices released by medical experts and levels of government.

We recognize that the situation is fluid and we will continue to adapt in order to provide you (our members) with the safest and most enjoyable tennis experience that we can.
